

Jean-Claude BLOCK**Selected publications on drinking water, distribution systems, and biofilms**

1. MAUL A., EL-SHAARAWI A.H. and BLOCK J.C. (1985). Heterotrophic bacteria in water distribution systems I spatial and temporal variations. *Sci. Total Environ.* 44, 201-214.
2. MAUL A., EL-SHAARAWI A.H. and BLOCK J.C. (1985). Heterotrophic bacteria in water distribution systems II sampling design for monitoring. *Sci. Total Environ.* 44, 215-224.
3. FALLA J.A. and BLOCK J.C. (1987). Influence of exopolysaccharides on bacterial resistance to ozone. *Ozone Sci. Engng.* 9, 259-264.
4. HAUDIDIER K.A., PAQUIN J.L., HARTEMANN P., COLIN F. and BLOCK J.C. (1988). Biofilm growth in drinking water network : a preliminary industrial pilot plant experiment. *Wat. Sci. Technol.* 1988, 20, 109-115
5. BLOCK J.C., HAUDIDIER K., PAQUIN J.L., MIAZGA J. and LÉVI Y. (1993). Biofilm accumulation in drinking water distribution systems. *Biofouling* 6, 333-343.
6. MATHIEU L., BLOCK J.C., MAUL A., PREVOST M. and DeBISHOP R. (1995). Biological stability of drinking water in the city of Metz distribution system. *J. Wat. SRT Aqua* 44 , 230-239.
7. FASS S., DINCHER M.L., REASONER D.J., GATEL D. and BLOCK J.C. (1996). Fate of *Escherichia coli* experimentally injected in a drinking water distribution system. *Water Research* 30, 2215-2221.
8. BOIS F.Y., FAHMY T., BLOCK J.-C. and GATEL D. (1997). Dynamic modeling of bacteria in a pilot drinking-water distribution system. *Water Research* 31, 12, 3146-3156.
9. SABY S., SIBILLE I., MATHIEU L., PAQUIN J.L. and BLOCK J.C. (1997). Influence of water chlorination on the counting of bacteria with DAPI. *Appl. Environ. Microbiol.* 63, 4, 1564-1569.
10. SIBILLE I., MATHIEU L., PAQUIN J.L., GATEL D. and BLOCK J.C. (1997). Microbial characteristics of a distribution system fed with nanofiltered drinking water. *Water Research* 31, 9, 2318-2326.
11. SIBILLE I., SIME-NGANDO T., MATHIEU L. and BLOCK J.C. (1998). Protozoan bacterivory and *Escherichia coli* survival in drinking water distribution networks. *Appl. Environ. Microbiol.* 64, 1197-202.
12. GAUTHIER V., GERARD B., PORTAL J.M. and BLOCK J.C. (1999). Organic matter as loose deposits in drinking water distribution systems. *Water Research* 33, 4, 1014-1026.
13. GAUTHIER V., REDERCHER S. and BLOCK J.C. (1999). Chlorine inactivation of a *Sphingomonas* sp. attached to goethite particles in drinking water. *Appl. Environ. Microbiol.* 65, 1, 355-357.
14. SABY S., LEROY P. and BLOCK J.C. (1999). *E. coli* resistance to chlorine and glutathione synthesis in response to high oxygenation and starvation. *Appl. Environ. Microbiol.* 65, 12, 5600-5603
15. MORIN P., GAUTHIER V., SABY S. and BLOCK J.C. (1999). Bacterial resistance to chlorine through attachment to particles and pipe surfaces in drinking water distribution systems. In « *Biofilms in the aquatic environment* », Keevil C.W., Godfree A., Holt D. and Dow C. (eds), 171-190, RSC Publishers.
16. FIORINA J.C., WEBER M. and BLOCK J.C. (2000). Occurrence of lectins and hydrophobicity of bacteria obtained from biofilms of hospital catheters and water pipes. *J. Appl. Bacteriol.* 89, 494-500.
17. GAUTHIER V., BARBEAU B., MILLETTE R., BLOCK J.-C. and PREVOST M. (2001). Suspended particles in the drinking water of two distribution systems. *Wat. Sci. Technol.* 1 (4), 237-245.
18. GAUTHIER V., PORTAL J.M., YVON J., ROSIN C., BLOCK J.C., LAHOUSINE V., BENABDELLAH S., CAVARD J., GATEL D. and FASS S. (2001). Characterization of suspended particles and deposits in water reservoirs. *Wat. Sci. Technol.* 1 (4), 89-94.
19. APPENZELLER B.M.R., BATTÉ M., MATHIEU L., BLOCK J.C., LAHOUSINE V., CAVARD J. and GATEL D. (2001). Effect of adding phosphate in drinking water on bacterial growth in slightly and highly corroded pipes. *Water Research* 35 (4), 248-253.

20. APPENZELLER B.M.R., DUVAL Y.B., THOMAS F. and BLOCK J.C. (2002). Influence of phosphate on bacterial adhesion onto iron oxyhydroxide in drinking water. *Environ. Sci. Technol.* 36, 4, 646-652.
21. BOUALAM M., QUILES F., MATHIEU L. and BLOCK J.C. (2002). Monitoring the effect of organic matter on biofilm growth by ATR/FT-IR spectroscopy. *Biofouling* 18, 1, 73-81.
22. FASS S., BLOCK J.C., BOUALAM M., GATEL D., CAVARD J., BENABDALLAH S. and LAHOSSINE V. (2003). Release of organic matter in discontinuously chlorinated drinking water network. *Water Research* 37, 3, 493 – 500.
23. PHE M.-H., DOSSOT M., and BLOCK J.-C. (2004). Chlorination effect on the fluorescence of nucleic acid staining dyes. *Water Research* 38, 3729 – 3737.
24. BATTE M., APPENZELLER B.R.M., GRANDJEAN D., FASS S., GAUTHIER V., JORAND F., MATHIEU L., BOUALAM M., SABY S. and BLOCK J.C. (2003). Biofilms in drinking water distribution systems. *Reviews in Environmental Science and Biotechnology* 2, 147 – 168.
25. GRANDJEAN D., FASS S., TOZZA D., CAVARD J., LAHOSSINE V., SABY S., GUILLOTEAU H. and BLOCK J.C. (2005). Coliform culturability in over- versus undersaturated drinking waters. *Water Research* 39, 1878-1886.
26. APPENZELLER B.M.R., YANEZ C., JORAND F. and BLOCK J.C. (2005). Advantage provided by iron for *Escherichia coli* growth and cultivability in drinking water. *Appl. Environ. Microb.* 71, 9, 5621-5623.
27. PHE M.H., DOSSOT M., GUILLOTEAU H. and BLOCK J.C. (2005). Nucleic acid fluorochromes and flow cytometry prove useful in assessing the effect of chlorination on drinking water bacteria. *Water Research* 39, 3618-3628.
28. GRANDJEAN D., JORAND F., GUILLOTEAU H. and BLOCK J.-C. (2006). Iron uptake is essential for *Escherichia coli* survival in drinking water. *Letters in Applied Microbiology* 2006, 43(1), 111-117.
29. BATTE M., FELIERS C., SERVAIS P., GAUTHIER V., JORET J.-C., and BLOCK J.C. (2006). Coliforms and other microbial indicators occurrence in water and biofilm in full-scale distribution systems. *Water Science and Technology* 54(3): 41-48.
30. PHE M.-H., DOSSOT M., GUILLOTEAU H., BLOCK J.-C. (2007). Highly chlorinated *Escherichia coli* cannot be stained by propidium iodide. *Canadian Journal of Microbiology* 53 (5), 664-670.
31. PARIS T., SKALI-LAMI S. and BLOCK J.-C. (2007). Effect of wall shear rate on biofilm deposition and grazing in drinking water flow chambers. *Biotechnology and Bioengineering* 97, 6, 1550-1561.
32. TATCHOU-NYAMSI-KÖNIG J.A., MOREAU A., FEDERIGHI M. and BLOCK J.C. (2007). Behavior of *Campylobacter jejuni* in experimentally contaminated bottled natural mineral water. *Journal of Applied Microbiology* 103, 280-288.
33. GALÈS G., PENNINGCKX M., BLOCK J.-C., LEROY P. (2008). Role of glutathione metabolism status in the definition of some cellular parameters and oxidative stress tolerance of *Saccharomyces cerevisiae* cells growing as biofilms. *FEMS Yeast Research* 8, 667-675.
34. TATCHOU-NYAMSI-KÖNIG J.-A., DAGUE E., MULLET M., DUVAL J.F.L., GABORIAUD F., BLOCK J.-C. (2008). Adhesion of *Campylobacter jejuni* and *Mycobacterium avium* onto polyethylene terephthalate (PET) used for bottled waters. *Water Research* 42, 4751-4760.
